### Slide Presentation System Provided

Speakers who need to present slides as part of their presentation will be provided access to a projector with built-in mono speaker, Windows laptop, slide changing remote with laser pointer, power strip and screen. Use of that system simply requires providing to us a Microsoft Powerpoint file (.PPT or .PPTX) by email or cloud file sharing in advance or at the time of presentation on a Windows-readable USB thumb drive or SD Card. We have Microsoft PowerPoint to play the slide show. A full description of the system is [HERE](#).
